

## **Pivotal Moves Headquarters to Larger Office to Accommodate for Higher Growth**

**COMPANY POISED TO RAMP WITH THE SEMICONDUCTOR INDUSTRY**

**Pleasanton, CA.—July 8, 2008**—Pivotal Systems Corporation, the leader in advanced process monitoring and control solutions, today announced that it has moved its headquarters to a larger office space. The new office address is 4683 Chabot Drive, Pleasanton, California 94588.

“This move was sorely needed given the growth we are seeing,” said John Hoffman, Pivotal’s Chief Executive Officer, “With the new office space, we can accommodate for increased headcount as well as specialized lab facilities to continue to develop and test new process monitoring and control solutions.”

“With the new lab facilities, we expect to accelerate our product development efforts, such as our upcoming gas flow monitoring solutions,” said Joseph Monkowski, Pivotal’s President and Chief Technology Officer, “The facility allows us to better mimic production situations for enhanced product development and testing efforts.”

### **About Pivotal Systems**

Pivotal Systems Corporation provides best-in-class monitoring and process control technology for the semiconductor manufacturing industry. Pivotal’s vision is to enable an order of magnitude increase in fab productivity and capital efficiency for current and future technology nodes. This vision is achieved through its real time in situ process monitoring and control solutions. Founded in 2003 and based in Pleasanton, California, the company is led by veterans from the semiconductor and high-tech industries.
